

The Narrative Experience

Part II

Last Critique

- Decisions based on ethics were too broad
- Concept was not concrete nor complex enough
- Concept was too similar to a “personality quiz”
- What do we want the user to get out of it
- What’s the purpose of our interface?

Brainstorming

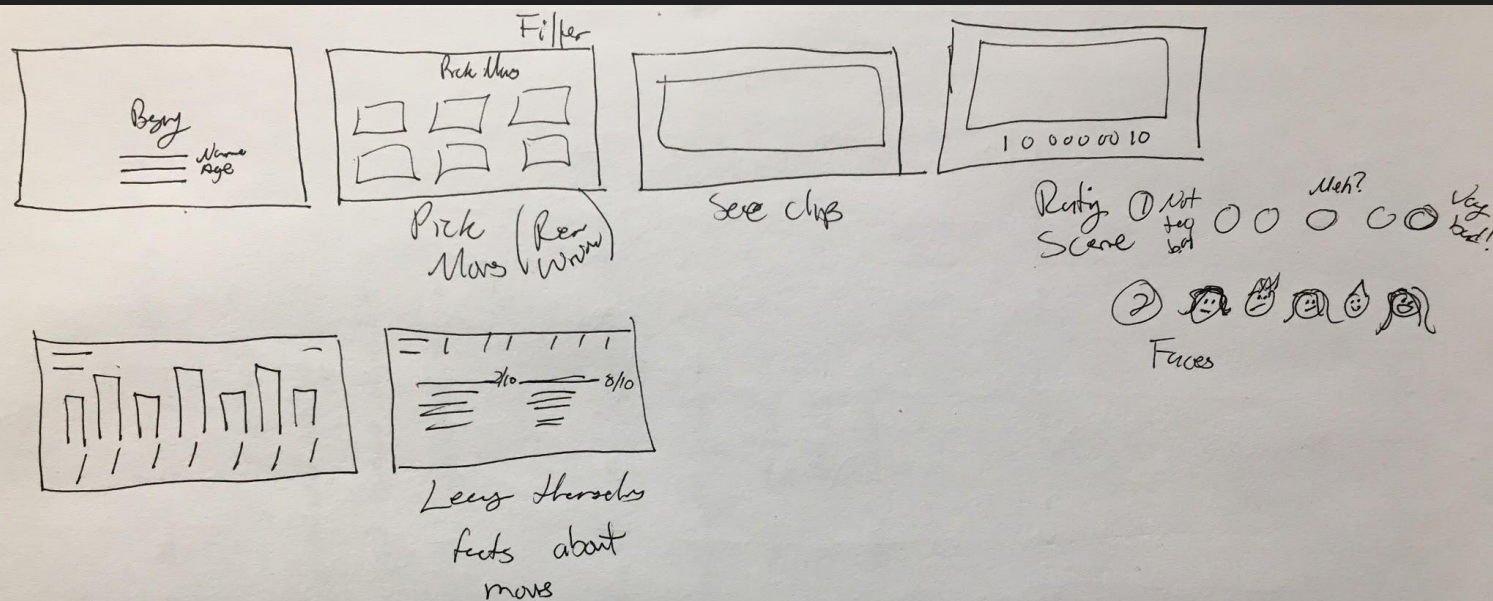

- Connection between/amongst movies
- What's the purpose of having more than 1 movie
- Too much focus on FUN
- Overcomplicating → forgot to focus on the bigger picture

Focus:
Invasion of Privacy

What is the user going to learn from this experience?

The user is going to learn about films that deal with the invasion of privacy and how the user relate to the perspectives of other film enthusiasts.

How is the user going to learn from our interface?

View Port = Per Window

Investment of Privacy in movies ~~while relating to other movie lovers/enthusiast~~
and how movie lovers see it. Make people explore more movies.

Thank You
